

SUGARCREST
FESTULOLIUM

HIGH QUALITY AND PERSISTENT

- PERENNIAL TYPE
- HIGH FORAGE QUALITY
- EXCELLENT PERSISTENCE
- HIGH YIELDING
- FAST ESTABLISHMENT

Sugarcrest is new perennial-type festulolium that provides better forage quality than other fescue-type festuloliums. **Sugarcrest** establishes quickly and has a fast regrowth, yielding more tonnage per acre than the competition. **Sugarcrest** has excellent persistence, providing highly palatable feed for years. **Sugarcrest** has improved winter-hardiness and disease resistance compared to traditional perennial ryegrass. Choose **Sugarcrest** for a forage that combines unsurpassed quality and longevity.
